- Home-cooked meal served family style in a conservative-Mennonite home
- And more!!!

### 3 days—2 nights of adventure

Travel from Two Rivers through the rolling hills of southwestern Wisconsin. We will take a tour of the Dickeyville Grotto, built from 1925-1930. It is a creation in stone, mortar and bright colored objects-collected materials from all over the world. These include colored glass, gems, antique heirlooms of pottery or porcelain, stalagmites and stalactites, sea shells, starfish, petrified sea urchins and fossils, and a variety of corals, amber glass, agate, quartz, ores, such as iron, copper and lead, fool's gold, rock crystals,

onyx, amethyst and coal, petrified wood.

We will arrive at the Riverside Casino and Golf resort. You will be greeted and given opportunities for golf, casino play, or simply relax in the outdoor or indoor pools and hot tub.

Following your amazing buffet breakfast at the casino we will leave for a day in Kalona. Our guide will let us know about the customs and lifestyles of the various Amish and Mennonite groups of the area, with a tour through the countryside. We will eat a home cooked meal in a Conservative-Mennonite home. The afternoon is your chance to look at the various specialty stores from woodworking, quilting, crafts, food & bakery.

**A step-on guided tour will be part of your experience.**

The golf course at Riverside Casino & Golf Resort™ will make any golfer feel like a champion. After all, it was designed by Rees Jones, a designer of championship golf courses. If you prefer to stay and golf, mention it when you sign up and we will help with the arrangements.

### Sign up today
